To Whom It May Concern:

The purpose of this letter is to make a personal recommendation on the behalf of Loren Evers.

Loren possesses excellent teaching ability. He has strong presentation skills that are adaptable to a wide range of learners. He has taught computer classes for our company of approximately 350 people over the last 5 years. Some of the classes he has developed and delivered include HTML Web Page Design, Inter/Intranet, and Lotus Notes Applications Training. One of his greatest strengths is his ability to connect with students and to understand their learning goals. With this ability, he structures a classroom environment where students are eager to learn and participate. His instructional manner is described by students and peers as "focused," "high energy," and "fun."

Loren is a valuable part of our Training & Development Team at TSI. I believe his skills have increased the knowledge base of hundreds of our employees, which in turn has contributed to our business growth. Any school/organization would find him to be a valuable asset to their program. Loren is a unique individual with a positive attitude, who can accept responsibility and complete a project with little oversight or direction. I would highly recommend him to any school/organization seeking these qualities in an individual.

Sincerely,

Camay A. Blakely, MA
Quality & Training Manager
